My dear Dr. Lummis,

Last year Mrs. Pendy here in Berkeley heard me give a recital of folk songs for children and asked afterwards whether I knew of your collection of songs of early California. She thought it would be especially fitting for me to familiarize our

about them which would be good material for a portion of a talk on folk music in America -

Thanking you for any counsel you may give me,

I am, Cordially yours,

Ruth Underwood

(Mrs. W.C.)

California children with them.

I find myself being called upon to do more and more with folk music for all sorts of groups of people both talking about it, as well as giving a few recitals. I should like to include some of our own Spanish songs for I suppose they are Spanish. Is your collection available and if so at what price and do I order it directly from you?

Also can you tell me any sources of information

My Dear Mrs. Torze:

I think you would find my First Book of"Spanish Songs of Old California"of great helpfullness in your Folksongs talks and recitals. These Songs have within the year endeared themselves to many thousands who never heard them before.

My Preface to the Book and Arthur Farwell's Foreword give you considerable " Ammunition" for a talk.

The price is $1.50 post paid.

The Second Book,I hope to bring out within two or three months at most.

Sincerely Yours,
